SUSTAINABLE COLORS

IN COLLABORATION WITH HILDUR BLAD

Color is the first thing we notice, which is why we combine function with timeless hues. Our curated color palette draws inspiration from nature—both lasting and ever-changing.

Designed for versatility, our colors blend seamlessly with many others. We call it a "bridge color" concept, ensuring harmony between vibrant and neutral shades.

Nature's colors never go out of style; they are familiar and enduring. Natural palettes offer endless variations, from soft neutrals to bold contrasts, allowing for unique combinations.

In nature, muted tones coexist with vibrant details—like a bright flower against green leaves or a red seat on a chair. This interplay brings depth and visual interest.

Research shows nature promotes well-being and renewal. By drawing inspiration from its colors, we create sustainable and timeless designs.

With this color palette, developed in collaboration with strategic color expert Hildur Blad, we aim to inspire and guide towards sustainable color choices. These colors do not age and can be combined with each other or with other shades and tones to create timeless and harmonious interiors.

The palette consists of 11 color families.

HÅLLBARA KULÖRER

I SAMARBETE MED HILDUR BLAD

Sv

Färg är det första vi uppfattar, därför kombinerar vi funktion med tidlösa kulörer. Vår noggrant utvalda färgpalett hämtar inspiration från naturen – både beständig och föränderlig.

Färgerna är anpassade för att vara mångsidiga och harmoniera med många andra. Vi kallar det "brygg-kulörer", som skapar balans mellan starka och neutrala nyanser.

Naturens färger blir aldrig omoderna – de är välbekanta och tidlösa. De rymmer allt från mjuka toner till djärva kontraster, vilket ger oändliga möjligheter att kombinera.

I naturen samsas dämpade färger med livliga detaljer, som en färgstark blomma mot gröna blad eller en röd sits på en stol. Detta ger djup och visuell dynamik.

Forskning visar att naturens färger främjar välbefinnande och återhämtning. Genom att inspireras av naturens färgspel skapar vi hållbara och tidlösa designlösningar.

Med denna färgpalett, framtagen i samarbete med den strategiska färgsättaren Hildur Blad, vill vi inspirera och vägleda till hållbara färgval. Dessa färger åldras inte och kan kombineras med varandra eller med andra nyanser och toner för att skapa tidlösa och harmoniska interiörer.

Paletten består av 11 färgfamiljer.

IT'S YOUR IDEA, NOT OURS

TABLETOPS

Always with 21-24 mm solid plywwod core and surface material in;

- Veneer
- Linoleum
- Kayar
- HP Laminate
- Fenix Laminate

EDGES

Edges in 10 mm of solid wood in ash/oak or open plywood core. Both can be finished with lacquer, wax, or NCS.

LEGS & BASES

Made of solid wood in ash or oak, choose between lacquer, wax, or NCS.

METAL DETAILS

Standard RAL 9003, Signal White.

Colors and materials in this palette are our standard. But for us, it's about helping you find the table you're looking for — we won't choose for you. So, if you're looking for materials or colors beyond this palette, we're happy to help. It's your idea, not ours.

open plywood edge

solid edge in oak

All our tabletops are made with a solid plywood core. The edge can feature exposed plywood, beveled and angled in various designs, or be covered with a 10 mm solid ash or oak edge. Choose between lacquer, wax or an NCS color from the page 2.

TABLETOP STANDARD

VENEER

-  ASH
-  OAK
-  BIRCH

We only use high-quality thick veneer with a thickness of 1.5 mm.

SURFACE TREATMENT

WHITE 16

Lacquer for ash that creates a whitewashed effect with visible wood grain.

NR 10

Clear lacquer for ash and birch with 1 % white pigmentation to maintain the wood's tone over time.

NR 11

Clear lacquer for oak without pigmentation.

BROWN NATURE 08

Brown-pigmented wax for ash veneer and solid ash, comparable to the color of smoked oak.
